TRANSMITTAL OF NEW INVENTORS' DECLARATION

SIR:

In a related application (Ser. No. 11/974,610), the Examiner objected to the originally filed declaration because it contained non-initialized alterations. The declaration that was originally submitted in that case was a copy of the declaration that was submitted in the above-captioned matter. Accordingly, Applicants submit herewith a new inventors' declaration in this matter. Applicants also submit a Supplemental Application Data Sheet that reflects the current addresses of the inventors.

Applicants submit that no fee is due. If the Examiner determines that a fee is due, please charge Deposit Account No. 11-0171.

Respectfully submitted,

/Scott D. Locke/
